## **INDIAN AWARD FOR SCHOOL ENVIRONMENTAL MANAGEMENT**

on 30-31 December 2010 at India International Centre,  
New Delhi in the presence of National and International  
Dignitaries on the auspicious occasion of the  
2010 World Management Congress.

This Award has been instituted for selecting accomplished individuals enabling them to guide the human race living in a historic transitional period of burgeoning awareness of the conflict between human activities and environmental constraints, preparing to venture into a new millennium and to finally help save the fragile and endangered planet with the natural resources already overtaxed. The recipient of this award will help in developing a neological and neocratic approach to managerial decision making and the thinking process mechanism and tools for reducing the toll the world citizenry have exacted in supporting daily life and the ever growing problems on the earth exerting profound pressures on the Earth.
